PurAire ULTRA-4

Bipolar Ioniser /Air Purifier with HEPA11 Filter (CADR up to 1,900m³/hr)

Treatment Area Up to 500+ M²

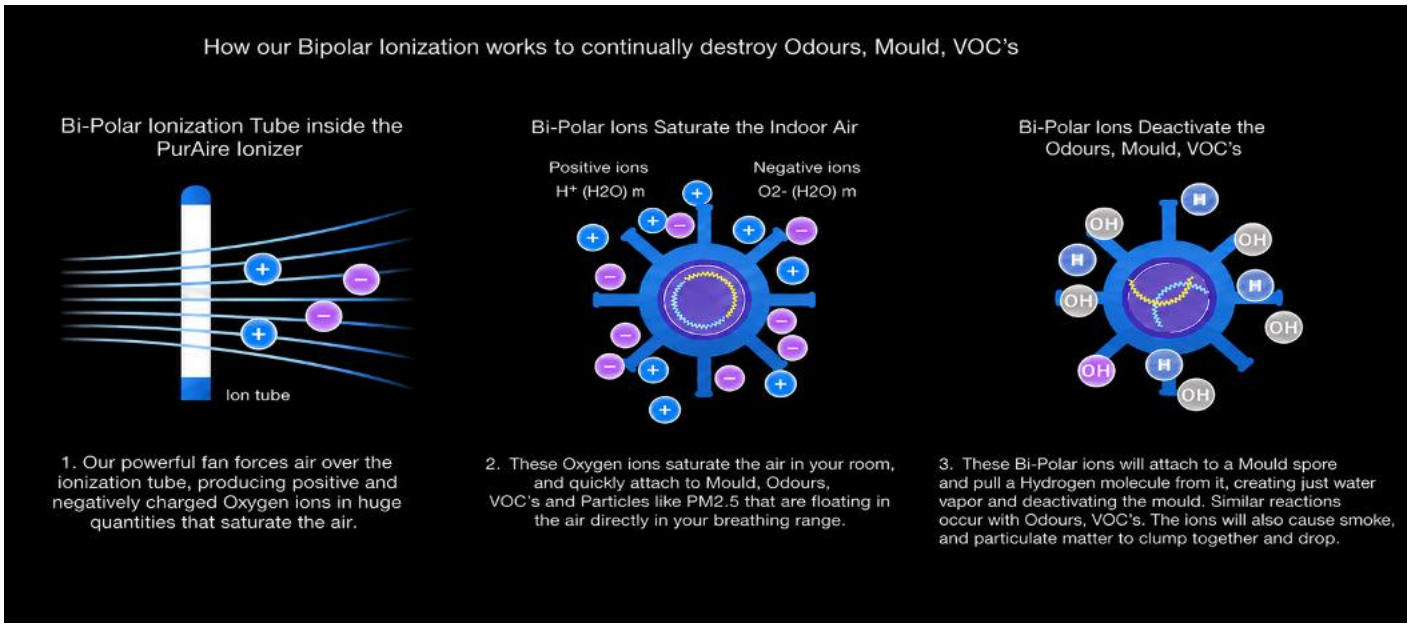
PurAire
Bipolar Ionization that REALLY Works.

The PurAire Ultra-4 uses our powerful 4 tube DBD Bipolar Ionization technology and HEPA11 Filtration to quickly saturate an indoor space of up to 500+M² with our powerful bipolar (positive and negatively charged) Oxygen Ions.

These ions attach to the odours and pathogens (Mould, Germs, Bacteria and Allergens) floating in the air and on surfaces that you touch, deactivating them or oxidising them on contact.

Odours, Mould and Mildew, VOC's, Cigarette, Cigar tobacco smells are quickly neutralized and eliminated. The powerful ions cause smoke particles, dangerous PM2.5 particles to "agglomerate" or clump together becoming larger and heavier where they rapidly drop out of the air or are trapped in the HEPA11 filter.

With the ULTRA-4's HEPA11 filter and powerful bipolar ionization, you get continuous and effective deodorisation, air purification and sanitisation and an estimated CADR rate of 1,900 m³/hr.



Specification	Details
Air Volume	Up to 2,000 M³/hr
Coverage Area	**Up to 500 M²**
CADR (Estimated Clean Air Delivery Rate)	Up to 1,900 M³/hr
Dimensions	1115L X 450W X 358H mm; 26 kg
Power Requirement	220/240VAC, 50/60Hz, 225W
Purification Type	HEPA 11 Filtration plus Bipolar Ionisation
Purification Technology	Four 520 mm Tubes
Filtration Technology	HEPA11 Filter
Estimated Tube Life	17,000 hours
Noise Level	<50dB
Warranty Details	Two years on the Ultra-4 and one year on the ionisation tubes
