APPLICATION

SG-MINI-5A bipolar ionizer is especially designed for installation in either a ceiling mounted cassette type aircon, or a wall mounted split type aircon. It has a built-in airflow switch, so that the ionizer is turned on only when the aircon unit is turned on. The ionization level can be adjusted by a 3-level knob on the Mini-5A. Mounting brackets are available to assure a proper installation on or inside the aircon unit.
