

PurAire MiniPro-1^{BS}

Bipolar Ionizer for Guest Rooms, Toilets, Clinics up to 40SqM

SPECIFICATIONS

Product information

Air volume	80m ³ /h
Application area	20~40m ²
Shell material	Aluminum alloy
Weight	1.4 kg
Product size	180*100*240 mm
Noise	≤50 dB
Filter type	Primary filter or HEPA

Electrical

Rated Voltage	12V DC
Power	7W

Ionization Tube

Quantity	1 pcs
Size	80 mm
Estimated Tube Life	17000 Hours

With Odours, Viruses like Covid-19, Tobacco smoke smells floating in your air, it is important to be able to neutralize and eliminate these contaminants in your hotel guest room, clinic, office, or toilets.

The PurAire MiniPro-1's Bipolar Ionization unit is designed to be wall mounted in your toilet, clinic or guest room to quietly eliminate those odours, viruses, germs, and bacteria, protecting you and your guests from unpleasant odours and disease.

The airflow through the HEPA filter and over the ionization tube produces powerful bipolar oxygen ions that flow into the space and saturate the indoor space with the ions providing constant and effective purification. The MiniPro-1 provides continuous disinfection to "actively" sanitize and deodorize the indoor air wherever it is installed.
