

# PurAire MiniPro-1 & 2

BS

PurAire

Bipolar Ionizers for Toilets, Hotel Rooms, Clinics

## SPECIFICATIONS

Product information	
Air volume	80m <sup>3</sup> /h
Application area	20~40m <sup>2</sup>
Shell material	Aluminum alloy
Weight	1.4 kg
Product size	180*100*240 mm
Noise	≤50 dB
Filter type	Primary filter or HEPA

  

Electrical	
Rated Voltage	12V DC
Power	7 W

  

Ionization Tube	
Quantity	1 pcs
Size	80 mm
Estimated Tube Life	17000 Hours

MiniPro-1

## SPECIFICATIONS

Product information	
Air volume	0~460m <sup>3</sup> /h
Application area	50~80m <sup>2</sup>
Shell material	Stainless steel
Weight	8.7 kg
Product size	425*125*320 mm
Noise	≤50 dB
Filter type	Primary filter , Standard timer

  

Electrical	
Rated Voltage	220V AC / 240V AC
Frequency	50 / 60 Hz
Power	72 W
Internal Fuse/overload safety protection design and Power dual protection	

  

Ionization Tube	
Quantity	2 pcs
Size	180 mm
Estimated Tube Life	17000 Hours
Material	Various composite materials, stainless steel outer mesh

MiniPro-2

The PurAire MiniPro 1 & 2 are designed to eliminate Odours, Viruses like COVID-19, and even Tobacco smells floating in the air in your toilets, hotel guest rooms, clinic, or any other space of up to 80 SqM.

The PurAire Model MiniPro-1 or 2 Bipolar Ionization units are wall mounted in your toilet, clinic, or guest room and will quietly and quickly eliminate those odours, viruses, germs, and bacteria.

Airflow through the internal HEPA filter passes over our ionization tubes that produce powerful bipolar (+ and -) oxygen ions that saturate your toilet, room, or space providing constant active deodorization and air purification.
