PurAire ULTRA-1

Bipolar Ioniser /Air Purifier with HEPA13 Filter

Treatment Area Up to 600+ M²

PurAire
Bipolar Ionization that REALLY Works.

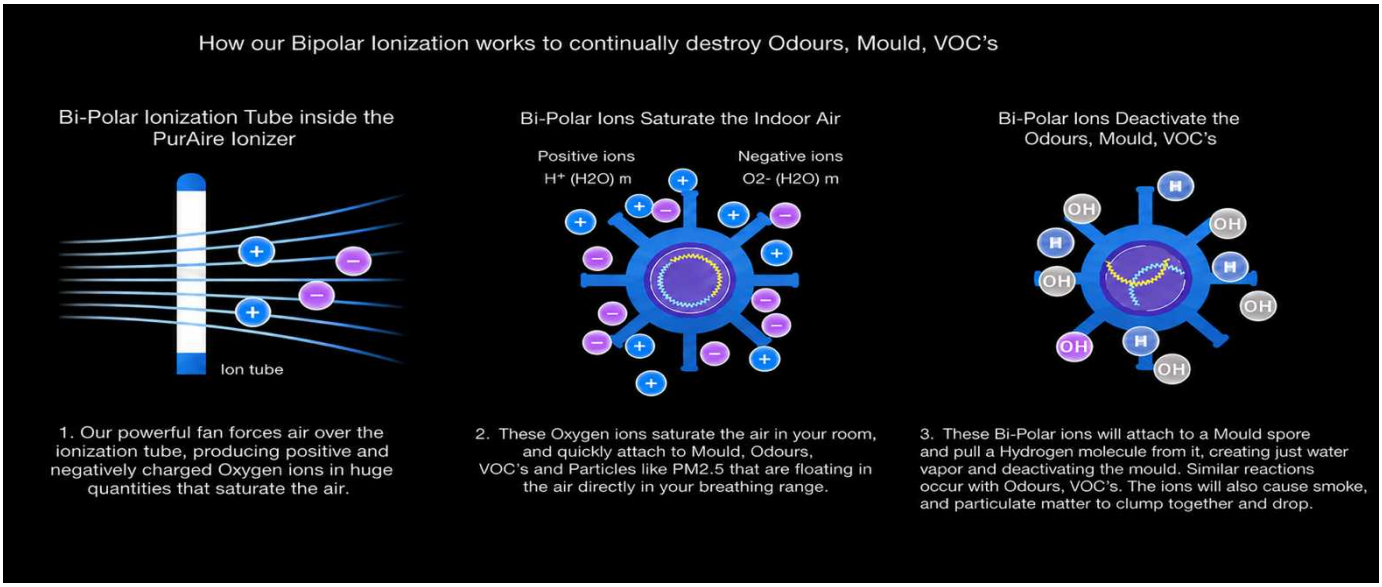

The PurAire Ultra-1 uses our powerful Bipolar Ionization technology to quickly deodorise and sanitise the air in an indoor space of up to 600M² with our powerful bipolar (positive and negatively charged) Oxygen Ions.

These ions rapidly attach to the odours and pathogens (Germs, Bacteria, Mould and Allergens) floating in the air and on surfaces that you touch, deactivating or oxidizing them on contact.

Odours, Cigarette & Cigar tobacco smells, Mould and Mildew, Germs, Bacteria, VOC's, are quickly neutralised and eliminated. The powerful ions cause smoke particles, and dangerous PM2.5 particles to "agglomerate" or clump together becoming larger and heavier where they rapidly drop out of the air or get trapped in the HEPA13 filter

With the ULTRA's HEPA13 filter and bipolar ionisation working together, you get continuous and effective filtration, deodorisation and sanitisation.

Specification	Details
Air Volume	Up to 850 M³/hr
Coverage Area	Up to 600 M²
Dimensions	370L X 255W X 865H mm; 23 kg
Power Requirement	220/240VAC, 50/60Hz, 60W
Purification Type	Continuous, Proactive, and HEPA 13 Filtration.
Purification Technology	One 520 mm DBD Ionization Tube.
Filtration Technology	HEPA13 Filter
Estimated Tube Life	17,000 hours
Noise Level	<50dB
Warranty Details	Two years on the Ultra One and one year on the Ionization Tube
